How to Backup Video Files on NVR

NVR Version	XX.8.0.6	Update	2018.7.24

Regular recorded files can be backed up by various devices, such as USB flash drives (USB flash disk, USB HDDs, USB writer), CD/DVD writer and eSATA, etc.
1. On monitor

**Step1:** Enter video playback interface by clicking "Main menu"→ "Playback".

Step2: Select Recorded files for Backup.

Select Playback Type and Stream Type, and select the channel and the date you want to backup, then select the start time and end time in time line by clicking " ".

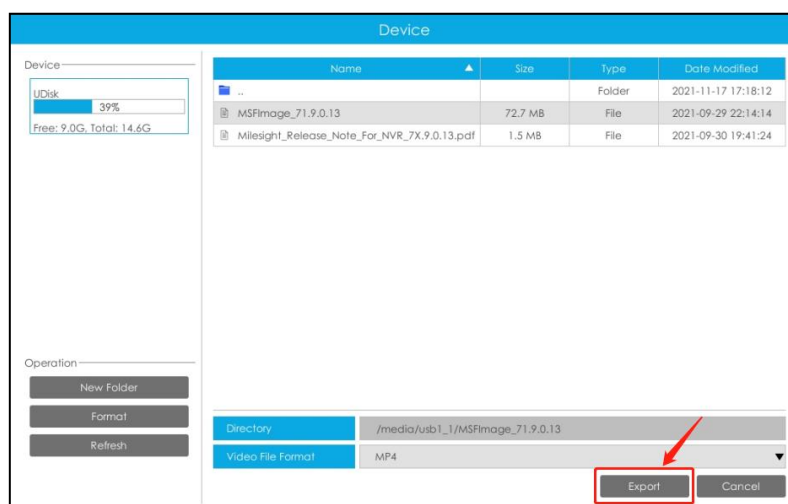

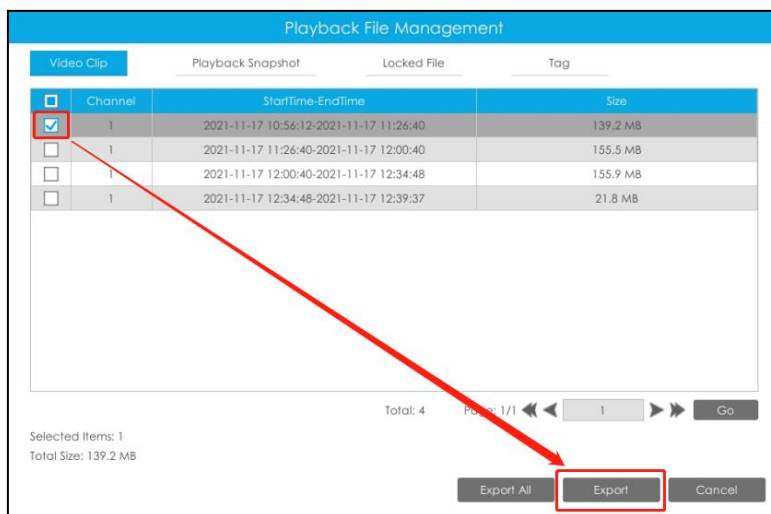

Click " " button to save the clipped video files to File Management interface.

Step3: On File Management interface, select the video files and click
